Our Customer Service Principles

Responsive: we will respond to you promptly. We aim to respond to phone enquiries, emails and mail correspondence within one working day and provide accurate and up to date information when you need it.

Professional: we will always treat you with courtesy and respect. Our services will be delivered with integrity and honesty.

Accountable: we will explain our services, so you understand their benefits and how they meet your needs. We will fulfil our obligations under the various laws, regulations and standards we operate within. You will receive the same excellent standard if you receive services from a third party on our behalf.

Transparent: we are open and transparent about our processes. We publish all our service information on our website. We aim to provide consistent and clear information across our communication channels. Our staff must disclose possible conflicts of interest. We will give you access to your personal information and provide timely and accurate information to help you make informed decisions.

Consultative: we will foster a coordinated and integrated approach to delivering our service. We aim to tailor our services to your needs, including linkages and referrals to other agencies.

Innovative: We will use your feedback to inform our decisions. We will be innovative in designing new and improved ways of delivering services.
